President of Manufacturers' Association Seeks to Enjoin Labor Federation.

WASHINGTON, D. C., August 19.—A significant legal action was begin in the Supreme Court of the District of Columbia by James W. Vancleave, president of the National Association of Manufacturers, to enjoin Samuel Gompers, John Mitchell and other officers of the American Federation of Labor, and several of its subsidiary organizations, from using the boycott and so-called "unfair list."

Mr. Vancleave institutes the suit in the name of a large manufacturing company of St. Louis, of which he is president, whose products are alleged to have been declared unfair by the labor unions; but the significance of the action lies in its being a test case, wherein Mr. Vancleave, as head of the Manufacturers' Association! seeks to permanently enjoin organized! albor from using the "unfair' or "we don't patronize" lists in its fight against irms and individuals.

The paper's were filed here in order that personal service might be immediately obtained against a large number of the labor leaders named in the compilaint, who are in Washington in attendance upon a general conference.
